Eureka Foam Trailers

Description

Orion Eureka Foam trailers are available in a variety of configurations. All sizes incorporate drop down stabiliser legs and swinging jockey wheels. Overrun braking systems and pneumatic tyres are also standard features. Generally trailers above 1000 Litres in capacity are twin axle type. All Eureka trailers that are fitted with fire fighting monitors have a checker plate deck plate fitted.

We can engineer trailers for almost any application.

Some trailer features may include:

- Monitor (manual or geared)
- Foam Pick-Up via a proportioner, foam inducing fog nozzle or foam inducing air aspirating foam nozzle (foam nozzles can be fitted with spray deflectors).
- Water inlet(s) fitted with check valves.
- Hot dip galvanised framework.
- 316 Stainless Steel foam tank.
- PV Vent.
- Fill Hatch.
- Drain Valve.
- Road Lighting to most international standards.
- Screw down jacks.
- Spare Tyre.
- Diesel Booster Pumps

1000 Litre Trailer c/w Warden 8060 & 6000 Fog Nozzle & 65mm Line Proportioner

Materials of Construction:

Foam Tank	316 Stainless Steel
Chassis	Steel
Pipe Work	Hot Dip Gal Steel
Monitor	Cast Bronze *

* Stainless Steel Monitors are available.

2000 Litre Trailer c/w foam concentrate transfer pump & hose reel and solar battery charger

Eureka foam tankers

Eureka foam tankers use a high quality galvanised or painted trailer combined with a chemical resistant polymer tank for a robust but cost effective foam tanker. Foam tankers are available in a number of capacities from 1,000 litre to 4,400 litre

Eureka foam tankers feature over run brakes and a range of tow connections to suit most applications. Foam tanks are baffled, UV resistant, tough and chemical resistant polyethylene.

Models

Model	Capacity	Part Number
Eureka EFT-1000	1,000 litre	15561
Eureka EFT-1500	1,500 litre	13592
Eureka EFT-2000	2,000 litre	14656
Eureka EFT-3000	3,000 litre	16064
Eureka EFT-4400	4,400 litre	12677

Custom trailers are also available.
